

NETSHIELDS LINE

The **TUBULAR NETSHIELDS** are extruded polyethylene (LDPE) elastic nets. They are the best solution for protection and handling of precision mechanical parts, gears, couplings and metallic industrial products in general. They combine protection and resistance to a high elasticity and colour to your artefacts. They are in rolls or in packs on request, being available in a wide range of diameters and colours.

The **NETSHIELDS NETS for SEPARATION** are flat nets in high density polyethylene (HDPE). They are used to separate, protect and handle mechanical items and semi-finished products, in packaging or containers in general. They are available both in rolls or in customised packs.

Advantages

- Protection of painted or treated parts
- High resistance to oil or grease
- Avoiding damages caused by rubbing
- Wide range of sizes, diameters, thicknesses
- Low costs
- Universal and versatile packaging
- Reusable and recyclable
